This is a politics light club. Many things are done as informally and as friendly as possible. Please note that the club repeaters and Echolink ® are owned privately, and leased or donated to the Northville Amateur Radio Association for unlimited usage in exchange for maintenance, insurance, and site leasing. Your dues are used to support all club activities (including the web page, Echolink ®, repeaters, events, general insurance, and more). No one makes any profit from your dues money.
